**COMPANY PROFILE**

# WE'RE A RESILIENT GROUP

Being a Group means having the culture, expertise, service and products the Customer needs to succeed.

**CPF Industriale, Geca and Tecnocontrol** have been created to meet market demand in real time, to show credibility and structural strength.

It's true. We're a resilient group because in over 70 years we have been able to understand and bring technology, products and customer service in line with the real needs of our Customers, who have changed incredibly over time. We have placed extreme attention on listening, analysing and studying without interfering with the final goal: **Uncompromised Quality**.

**Our Group is currently able to design, manufacture and sell** in the OEM, Industrial Gas Companies, Plumbing and Heating, HVAC, Gas distribution, Gas Safety and Oil & Gas sectors and operates in 91 countries worldwide.

# WHAT ARE YOUR REAL PRIORITIES?

This is the question we ask ourselves every day when interacting with our Customers.

Every Customer has their own needs: identifying their real priority is essential.

Every Market is unique: knowing the countries where we operate is the key to success.

Being able to work together in real time is our Group's real strength.

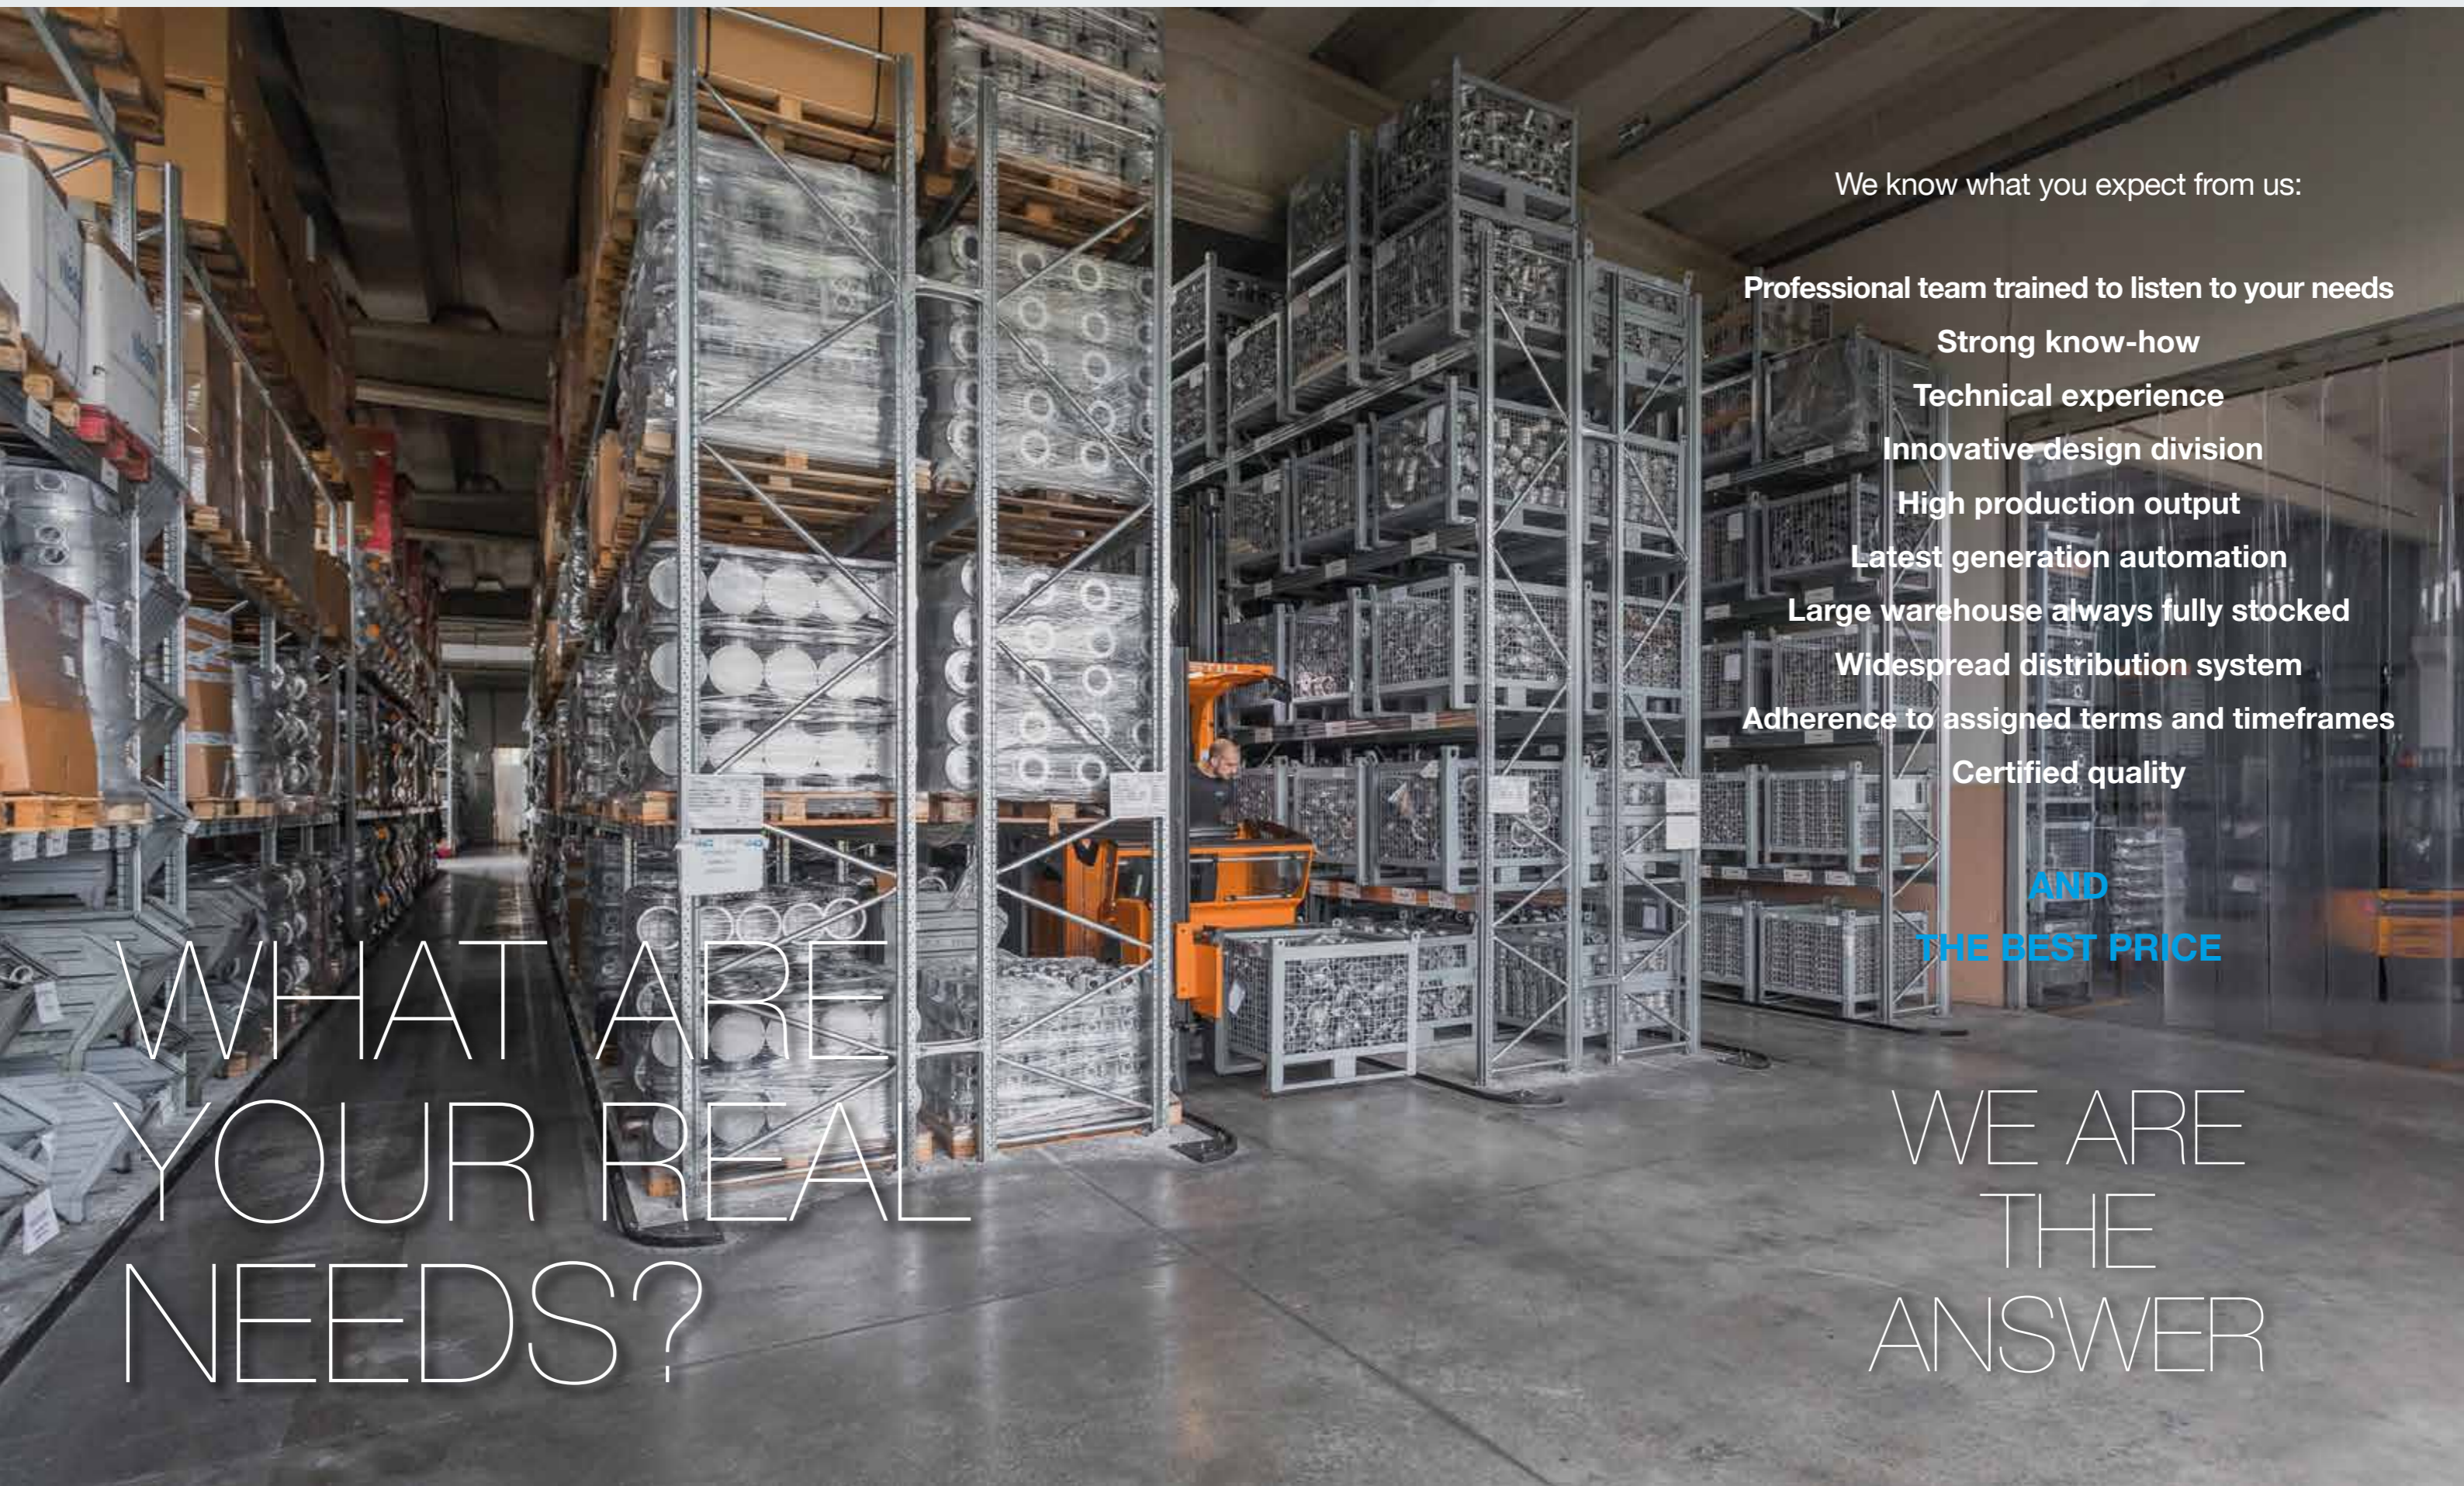

**GECA | TECNOCONTROL | CPF**

**WE DESIGN**

**WE MANUFACTURE**

**WE SELL**

The best products and integrated systems for the OEM, Industrial Gas Companies, Plumbing and Heating, HVAC, Gas distribution, Gas Safety and Oil & Gas sectors.

We know what you expect from us:

Professional team trained to listen to your needs

Strong know-how

Technical experience

Innovative design division

High production output

Latest generation automation

Large warehouse always fully stocked

Widespread distribution system

Adherence to assigned terms and timeframes

Certified quality

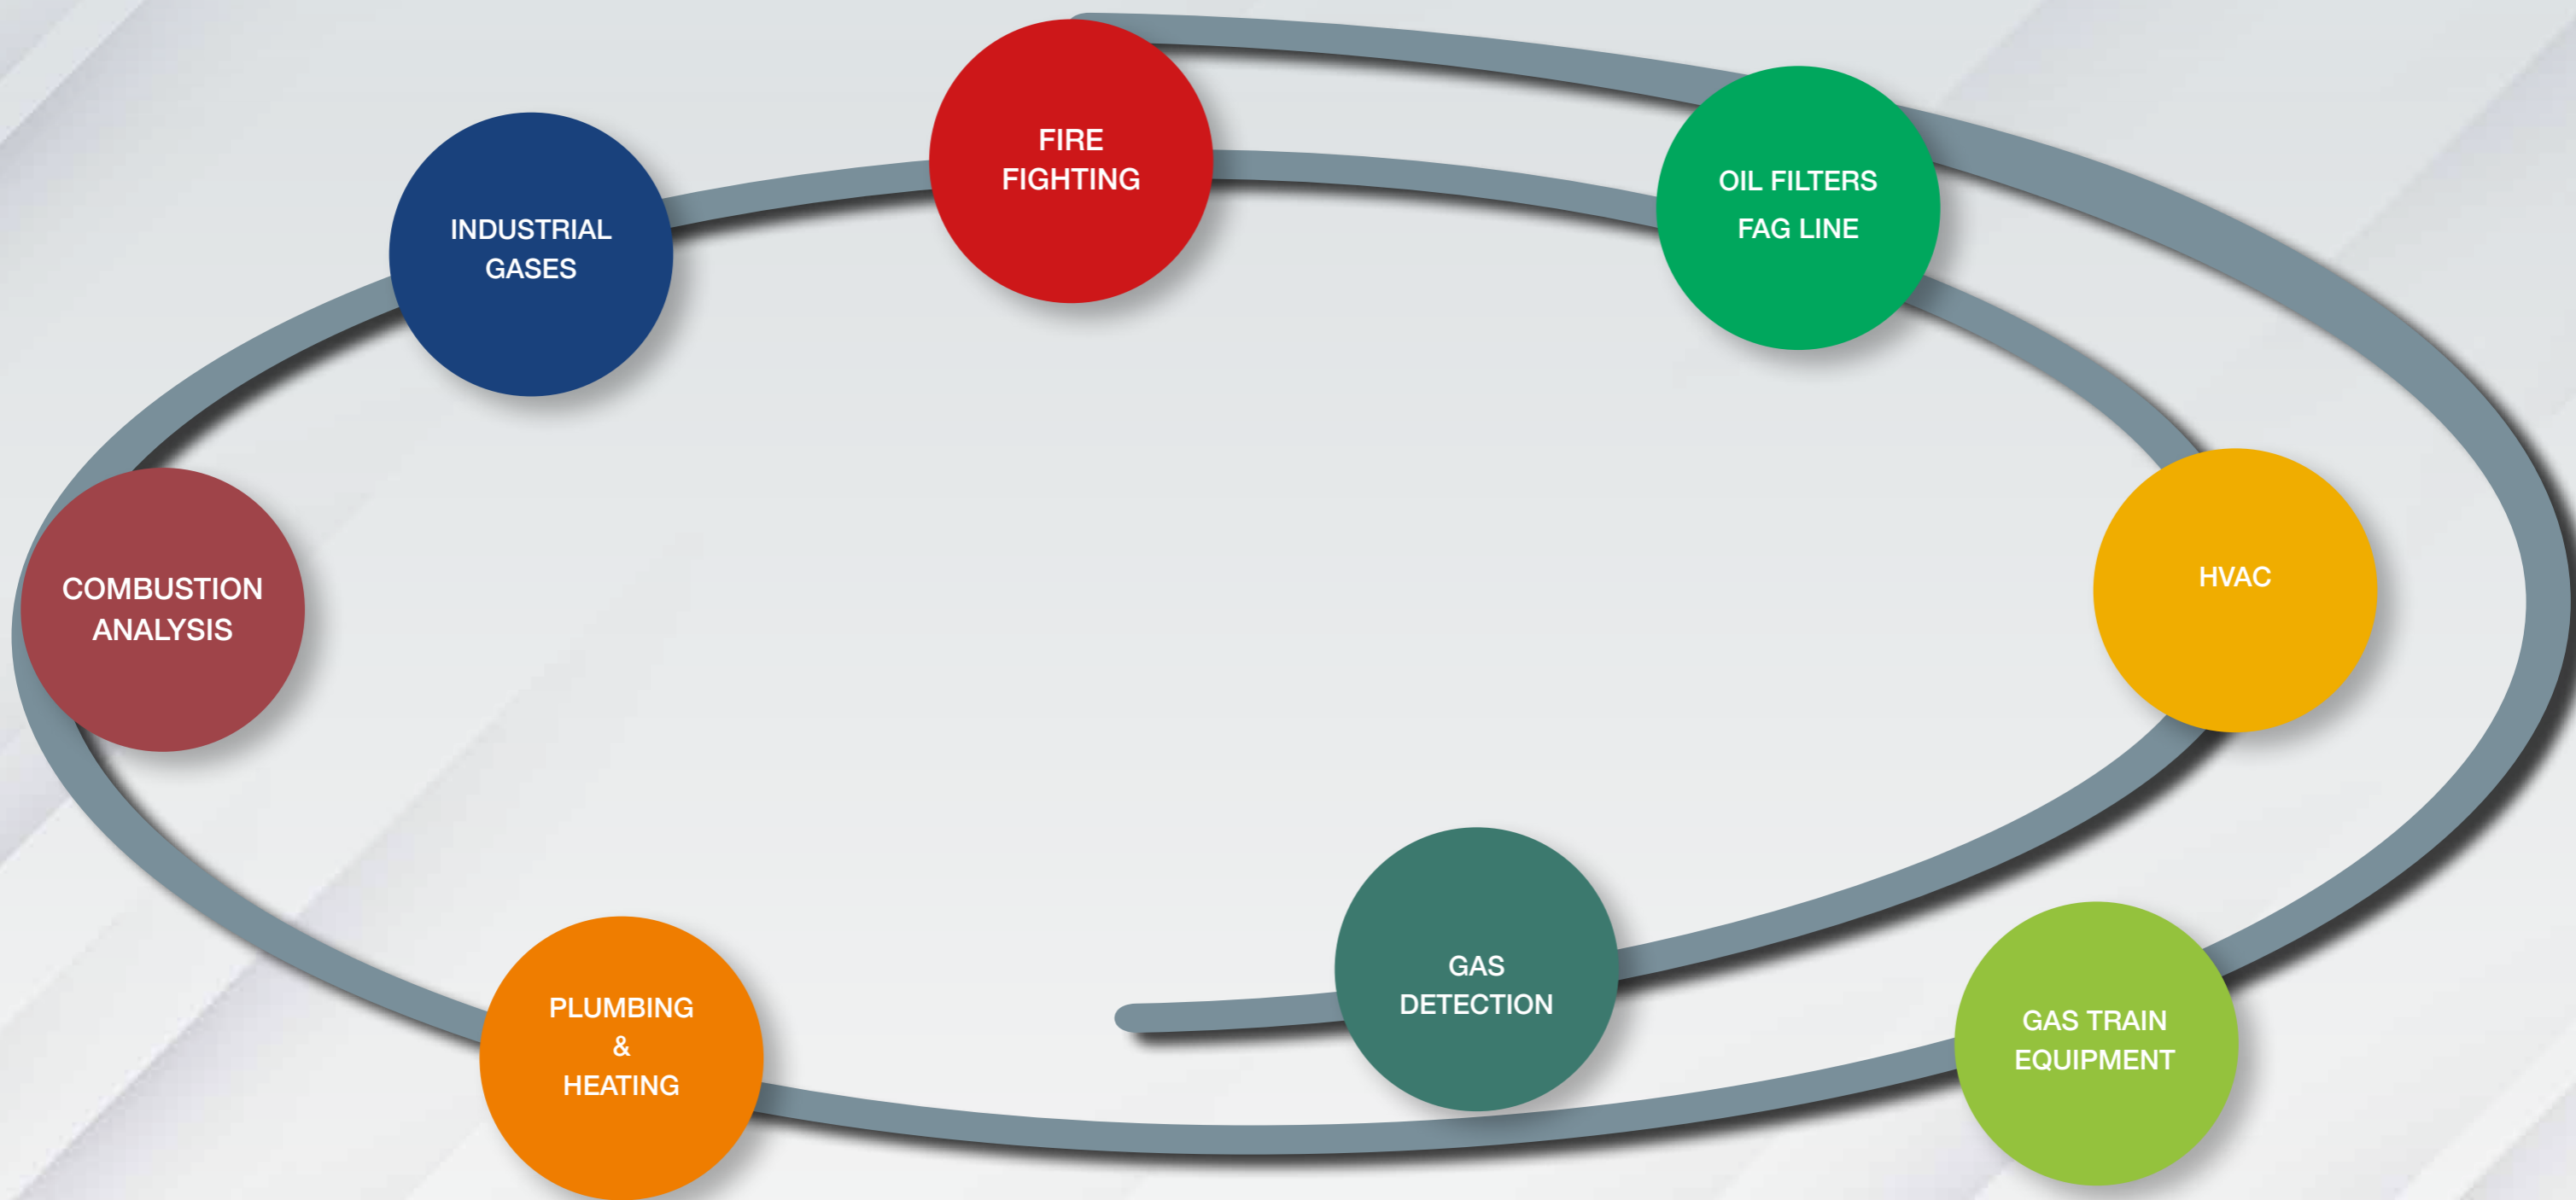

AND

THE BEST PRICE

WHAT ARE  
YOUR REAL  
NEEDS?

WE ARE  
THE  
ANSWER

# WELCOME TO OUR WORLD

*CPF Industriale was established in 1949 by the capable hands of Enrico Cavagna. It has always focused on a highly specialised production of extinguisher valves, industrial gas valves, sprinklers and fire-fighting equipment.*

*Tecnocontrol was established in 1967 at the brilliant initiative of Mr. Santuz. Right from the start, the company stood out for gas analysis products, especially for the industrial sector. Tecnocontrol was taken over by our group in 2000.*

Valves for fire extinguishers

Sprinklers

Valves for fire suppression system

O2 valves with integrated regulator

Cylinder valves for industrial gases

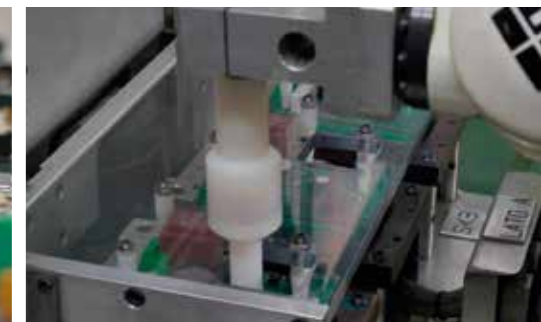

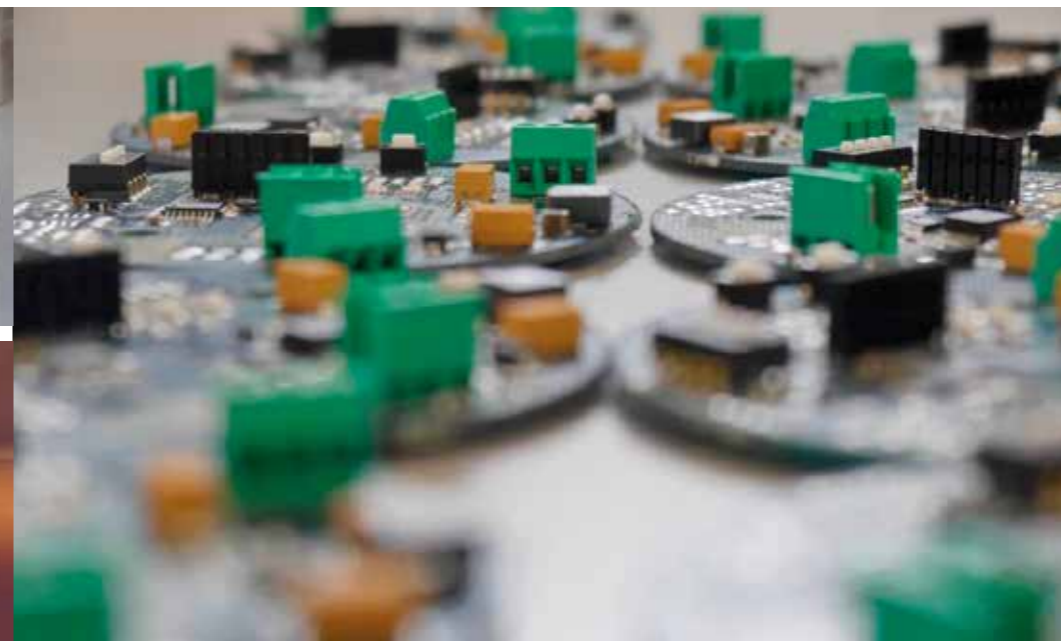

Commercial & industrial gas detection equipment

Measurement instruments for HVAC applications

Portable & Fixed flue gas analyzers

# geca

# FAG

**GECA** was founded in 1988 and thanks to its management expertise and high manufacturing quality, it soon established itself in the gas train and gas safety field. Its constantly adaptable approach led it to introduce new product lines, such as indoor air quality monitor.

**FAG** was created in 1974 as a manufacturer of filters for oil and heavy oil burners, and special filters on request. Over the years, it became a sector leader. The FAG brand has always been synonymous with quality and reliability. It was acquired by our group in 2018

Gas Train Equipment

Yukon - indoor Air Quality monitors

Residential gas detectors

Gas Safety valves

Thermostats

Oil Filters & Heavy Oil Filters

Oil Filters with Heating Element

Accessories for Oil

# PRODUCTION RANGE

**MADE IN ITALY**

Over time our manufacturing expertise, both from an electronic and a mechanical point of view, has been put to full use in the sector of thermoregulation systems, fire-fighting plants, gas protection, and gas flow treatment, as well as in the analysis of combustion emissions into the atmosphere. We offer a set of closely related products forming an extremely varied and exhaustive offer for applications requiring protection against risks caused by gases and fires and for monitoring emissions.

## FIRE EXTINGUISHER VALVES

- › Valves for N<sub>2</sub> and CO<sub>2</sub>
- › Valves for inert gases up to 300 bar
- › Valves for Novec gas
- › Quick opening Valves
- › Actuator
- › Valves for Powder
- › Valves for foam
- › Handwheel valves for CO<sub>2</sub>

## MEASUREMENT INSTRUMENTS

- › Manometer for test gas pipelines
- › Digital manometers
- › Video-Inspection Camera
- › Portable gas leaks detectors

## CYLINDER VALVES

- › High Pressure Cylinder Valves for Industrial Gases
- › Residual Pressure (PRV) Cylinder valves for various gases
- › Acetylene cylinder valve
- › High Pressure Cylinder Regulators for Industrial Gases
- › High pressure T and L fittings for Bundles & Copper Pigtaills
- › Cylinder valves with integrated regulator for medical oxygen/(vipr)

## THERMOREGULATION

- › Thermostats
- › Programmable thermostats
- › Climatic controllers
- › Time Switches
- › Yukon - indoor air quality
- › WIFI & GSM Thermostats

## GAS DETECTION

- › Domestic Gas detection
- › Commercial Gas detection
- › Industrial Gas detection
- › Yukon - indoor air quality
- › Calibration up to 102 different type of gases

## FLUE GAS ANALYZERS

- › Portable Flue Gas Analyzers
- › Fixed Flue Gas Analyzers
- › Zirconium Oxygen probes

## GAS TRAIN EQUIPMENT

- › Gas governors
- › Gas filters
- › Gas regulator with safety valve UPSO /OPSO integrated
- › Automatic Gas valves
- › Manual Gas valves
- › Relief valves
- › Slam Shut off valves
- › Pressure gauges

**USES:**

*Residential - Commercial - Industrial - Petrochemical  
 - Pharmaceutical - Service stations - Car parks -  
 Filling stations - Boiler rooms - Gas/diesel burners -  
 Hotels and restaurants- Underground fuel storage  
 facilities - Metal treatment - Hospitals and laboratories  
 - Tank storage facilities - LPG filling and storage  
 plants - Oil & Gas - Warehouses - Indoor air  
 monitoring - Home Care.*

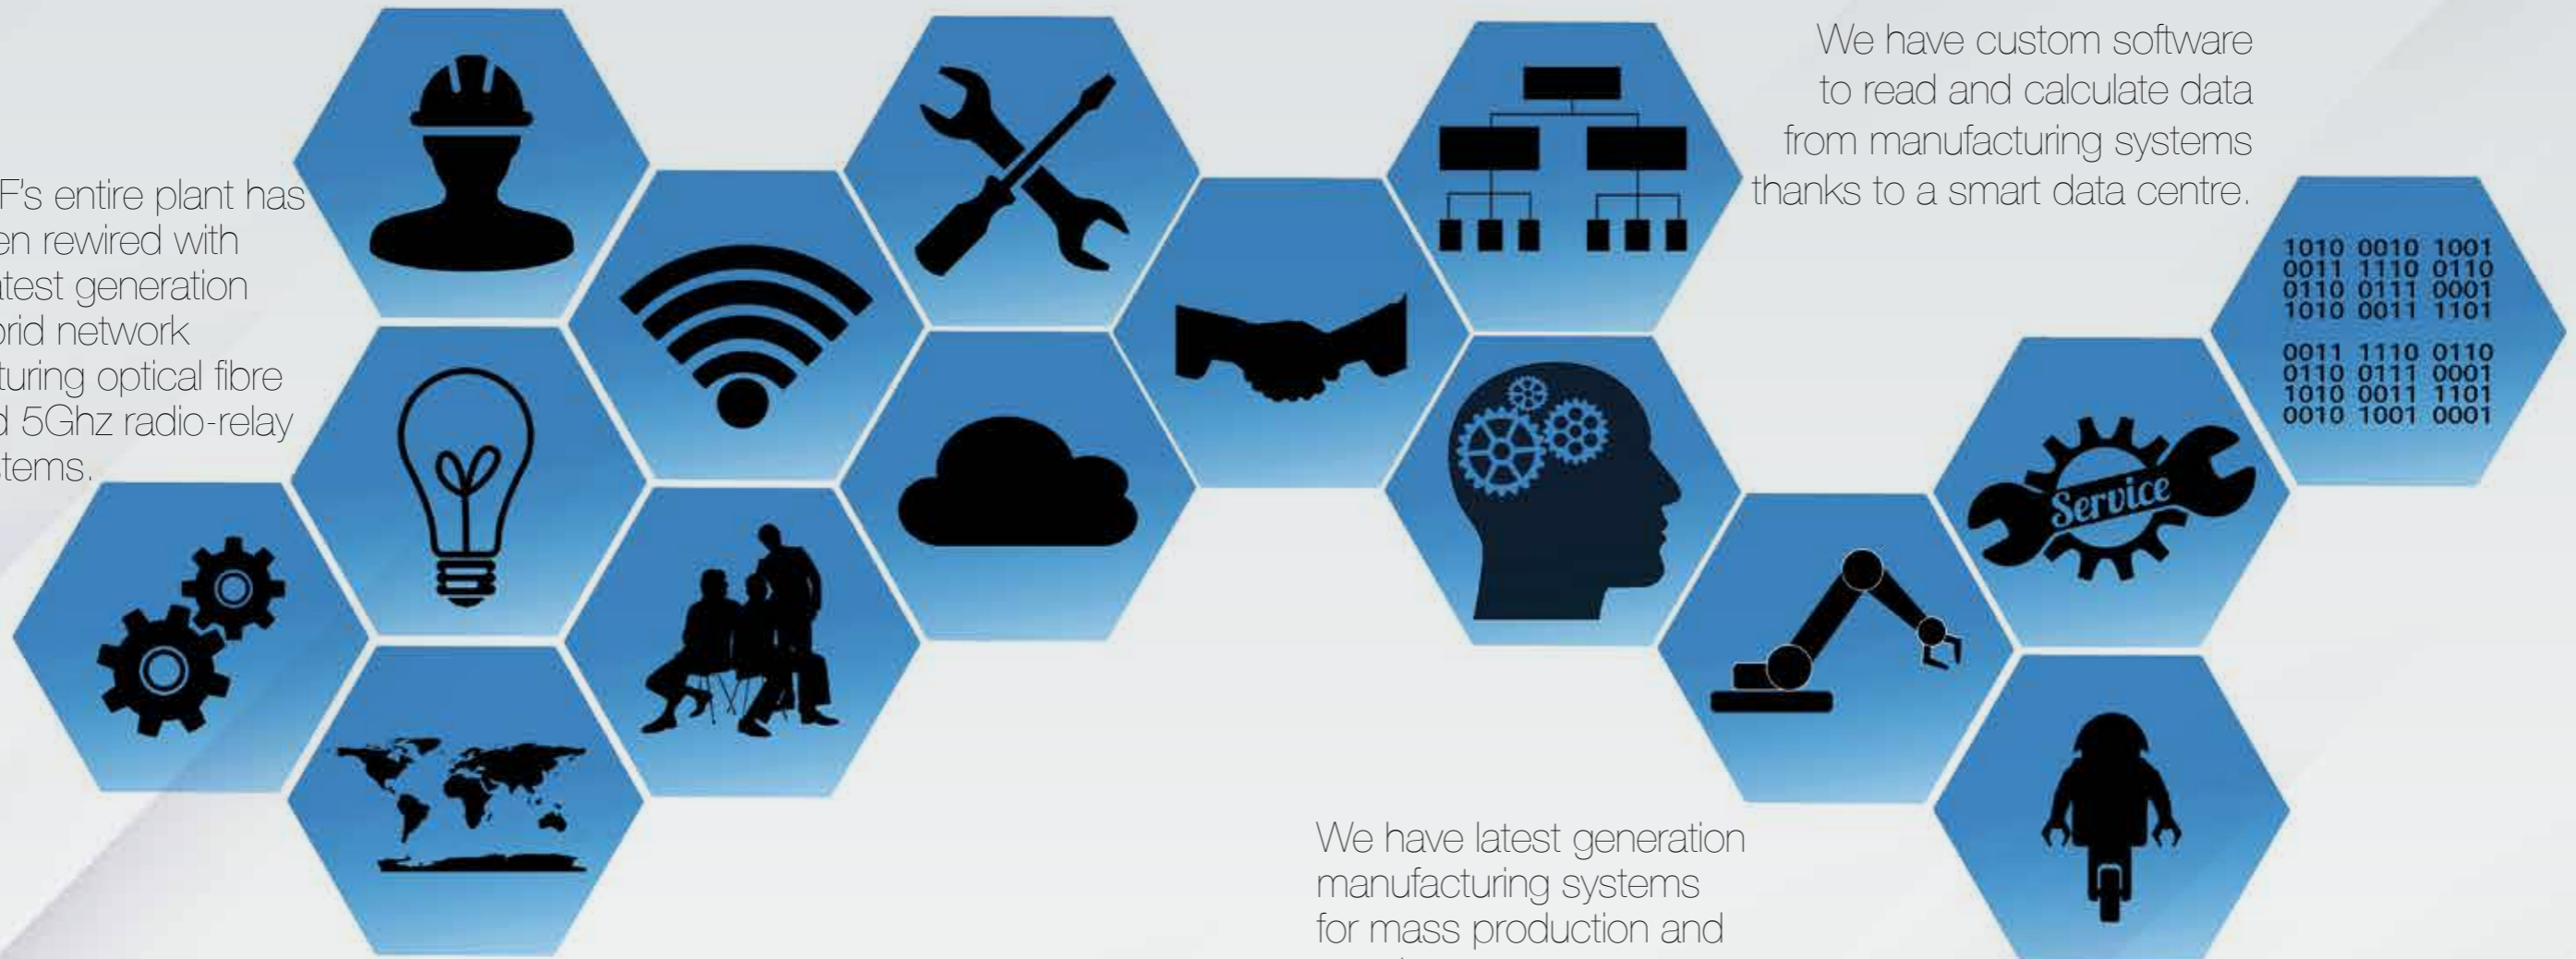

# INDUSTRY 4.0

CPF's entire plant has been rewired with a latest generation hybrid network featuring optical fibre and 5Ghz radio-relay systems.

We have custom software to read and calculate data from manufacturing systems thanks to a smart data centre.

We have latest generation manufacturing systems for mass production and creating prototypes.

We believe reputation  
is not just a word.  
It's a long journey  
and an important  
promise.

# DESIGN TO SHAPE STYLE

In today's industrial world, it's research, the technological significance of products and their market positioning that count. Another absolute value that truly stands out is appearance, something that needs to be regularly renewed according to current trends: design is something our Group is well-aware of, as it has been investing heavily in personnel and equipment.

Our partnership with a world-renowned designer – GIUGIARO DESIGN – has led us to introduce products with undisputed aesthetics for the modern style applied and acclaimed worldwide.

The result is a product line whose attractive design conveys its quality and reliability.
